Back-End: Java, SpringBoot, Microservice, Hibernate, Message Broker (Kafka), RESTful APIs
Databases: MySQL, MongoDB
Tools: Git, GitHub, Postman, Agile, VS Code, IntelliJ IDEA

Education

MCA University of Madras , Chennai - GPA: 6.8/10	June 2018 to Dec 2020
B.Sc, Thiruvalluvar University , Tirukkivilur - GPA: 7.1/10	June 2014 to Apr 2017

Projects handled

- | | |
|---|---------------------|
| Transfer Management System –Tamil Nadu Police[Technologies: Java,Angular, MySQL] | Oct 2025 to Present |
| <ul style="list-style-type: none">• Centralized Transfer Record Management – Enables structured handling of transfer applications within the Tamil Nadu Police administrative system.• Eligibility & Workflow Automation – Validates eligibility criteria and supports senior officer review with approve or reject decisions.• Priority-Based Transfer Processing – Manages waiting lists and posting priorities based on defined service rules and policies.• Compliance & Audit Tracking – Maintains accurate transfer history to ensure transparency, accountability, and policy compliance. | |

PR Monitoring System –Tamil Nadu Police[Technologies: Java,Angular, MySQL]

Nov 2024 to Sep 2025

- Integrated Record Management – Facilitates structured documentation within the Tamil Nadu State Police administrative system.
- Unique PR Number Generation – Assigns a distinct Punishment Roll (PR) number to officers based on disciplinary records.
- Law & Order Compliance – Ensures transparency in officer promotions and increments by tracking past disciplinary actions.
- Manual Entry & Processing – Supports accurate maintenance and processing of officer records, ensuring compliance with regulations across previous and current years.

Low-code [Technologies: Java, Angular, MySQL, MongoDB]

April 2022 to May 2023

- Low-code application development platform that helps businesses build custom web applications.
- Identify and resolve bugs to ensure application stability and reliability. Monitor and optimize application performance for smooth user experiences.
- Develop and integrate new features and RESTful API calls for seamless data exchange and system functionality.

Recovery EZ [Technologies: Java, Angular, MySQL, Kafka]

May 2023 to Nov 2023

- Motor Claims Recovery Platform.
- Developed a responsive web app with seamless multi-device UX and integrated multilingual support, enhancing accessibility.
- Diagnosed and resolved bugs to improve application stability and performance.

Supercharge framework[Technologies: Java,Angular, MySQL, MongoDB]

Nov 2023 to May 2024

- Accelerate software development, reduce costs, and enhance quality. Resolve bugs, configure Java security, and lead MySQL to MongoDB migration, ensuring data integrity and performance.

Courses & Certifications

Java : Accord Info Matrix Pvt.Ltd -Chennai

Jun 2021 to 2022

Python : Accord Info Matrix Pvt.Ltd -Chennai

Jun 2021 to 2022

JavaScript & MongoDB & JDBC : Great Learning -Online Courses with Certificates

May 2024 to June
